Back in Business Purchasing Guide Overview

As the country continues to deal with the COVID-19 pandemic, healthcare practices and businesses face pressure to quickly adapt to a new reality. Your organization needs a strategy to:

Help ensure the safety of your employees and patients and/or customers

Strive to meet expectations for higher levels of cleanliness throughout your facilities

Work to reduce the need for contact to the greatest extent possible

As your group purchasing organization (GPO), we understand that businesses like yours may need our support more than ever. We value the trust you have placed in us and want you to know that we stand ready to help. **Through our purchasing program and stockd[®], Premier's online marketplace, your organization has access to an available supply of items you'll need to get back in business:***

PPE and Medical Supplies
(face masks, face shields, gloves, infrared & touchless thermometers)

Shield Protectors and Barriers

Sanitizing Products
(hand sanitizer, soaps, wipes & disinfectants)

Foodservice Disposables
(paper goods, food and beverage containers & dispensers)

Touchless Products
(door entry, faucets & soap dispensers)

**Access to products are subject to availability from suppliers.*

Real-Time Contract & Product Resources

At Premier, we know that now more than ever, you need to identify, procure, and stock the most needed products to help protect your business, staff, and patients/customers. Our goal has always been to provide our members with unsurpassed visibility into their own operations and the marketplace at large. Our commitment to that goal remains and will continue during these unprecedented times.

To that end, we've developed the following resources to help our members stay abreast of important COVID-19- related contract/product updates in [real-time](#):

Product Allocation Report

This report includes categories and subcategories, recently cleansed for criticality to COVID-19. The categories represented in the file are based on prioritization by the Centers for Disease Control and Prevention (CDC) and Premier's internal clinicians – additional COVID-related categories and subcategories will be added each week, in order of priority and data cleansing status. This information is fluid based on new information available, and will be updated weekly. The "On Known Allocation" column indicates categories and products that are on the known allocation report, and only applies to critical COVID-19 categories (this will only be a subset of the full known allocation report).

Detailed Premier GPO Back in Business Contract Report

This report outlines Premier's GPO portfolio of COVID-19 recovery solutions. The spreadsheet, which is updated weekly, includes information regarding the types of COVID-19 related products covered under each agreement, as well as each agreement's PMDF requirements, class of trade eligibility, and distribution channels. The spreadsheet also provides contact information for each supplier listed.

stockd COVID-19 Inventory Updates

This report, updated weekly, provides stockd COVID-19-related inventory updates. The report includes back in stock alerts, deals and value-added offers, a list of products currently in stock and ready to ship, and products with low-inventory levels.

COVID-19 Recovery Solutions: Supplier Playbooks

Supplier playbooks have been created to coincide with existing contracts across service lines to help fast-track getting business back to health. Currently, the following suppliers have created playbooks for our members: American Express; AMN+Randstad; Crothall; Mobility Exchange; Netsertive; Office Depot; Sodexo; Staples. Additional supplier playbooks are expected to be added on a weekly basis.

Premier's End-To-End Supply Chain Solutions

S2S Global Overview

The impact of COVID-19 has created supply chain shifts globally. Our goal is to make sure that your business remains as unaffected as possible. To that end, Premier has adopted a strategy to invest in or partner with suppliers that source from multiple regions as well as domestic markets to help ensure that a greater proportion of healthcare products are insulated from shortages and available to our members in times of need.

S2S GLOBAL

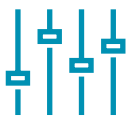

Premier's direct sourcing program is a unique procurement strategy designed to substantially reduce costs and provide members with better control of the supply chain. Premier's sourcing company, S2S Global, provides members with significant savings on a constantly expanding portfolio of high-quality, most commonly used clinical products.

Benefits of the program include:

- **Streamlined sourcing:**

Factory direct products that drive meaningful cost savings along with supply chain transparency.

- **Quality products:**

Members drive the process to define and refine product specifications, building a product formulary of high-quality products that enables more efficient value analysis. All products meet or exceed applicable regulations and standards.

- **Savings to Premier members:**

Average savings through this innovative sourcing program are 15 percent.

- **Expansive product portfolio:**

S2S Global sources products directly from the manufacturers and is dedicated to constantly expanding its product offerings with a focus on those product lines that will provide Premier members the greatest savings.

Premier COVID-19 Resources

While COVID-19 is new, preparing for responses to disasters is not, especially for the seasoned experts at Premier. We are committed to meeting the needs of our members and the patients they serve at all times. Below are additional Premier resources you can leverage for real-time COVID-19 updates:

- [Disaster Preparedness and Response Community](#)

(PremierConnect log-in required)

This community offers curated information and resources to help Premier Alternate Site members prepare and respond to potential disasters.

- [Crisis Forecasting and Planning: COVID-19 tool](#)

This solution on PremierConnect (log-in required) trends and forecasts key metrics related to COVID-19, connects them to individual facilities, and provides supplementary supply chain information to help businesses plan for the future.

- [The Premier Safety Institute](#)

This site provides safety resources and tools to promote a safe healthcare delivery environment for patients, workers and their communities.

- [Premier's Supply Chain Advisor \(SCA\)](#)

(PremierConnect log-in required)

SCA is a Web-based contract catalog and management tool that can help you search Premier contracts, identify saving opportunities, and streamline your supply chain processes.

- **stockd.**

stockd® is an online marketplace that connects sellers to buyers. Built by and for procurement professionals, stockd is powered by Premier and our more than three decades of purchasing expertise. Harnessing the experience, relationships, and innovative technology of Premier, stockd provides a streamlined digital purchasing experience complete with tools and insights to help businesses and healthcare providers thrive.

- [COVID-19: The Premier Response](#)

Premier's members have partnered with us to find truly innovative solutions to the biggest problems facing healthcare and our nation during COVID19, and we're proud to continue being a partner and advocate of theirs. This site provides a look into some of what we've been able to accomplish together in response to the pandemic.
